

By taking part in one of our events or sponsoring someone taking part, you will be helping EACH provide specialist care and emotional support for children with terminal conditions. You are also supporting their loved ones, so they can enjoy their time together as a family for as long as they have.

**By raising the target sponsorship of £250 you can help provide:**

**£46**

could pay for a two hour **music therapy session** to help engage and support a child whatever their disability or diagnosis

**£200**

could pay for a **Community Nursing Pack** to provide essential equipment to deliver care in the family home or elsewhere in the community.

**£600**

could pay for a **Clinical Nurse Specialist** for the week to provide expert nursing care to children and young people with life-threatening conditions.

**£150**

could pay for a **Counsellor** for the day to provide emotional support to help families cope during the more difficult times.

“We would be lost without EACH, they help us with so much – not just emotional support, they hold parties and trips – these make us feel like a normal family.”  
Lola’s Mum, Sonia
