

# RevoLOotion

**The RevoLOotion vehicles are designed for individuals who require either a changing bench and/or hoist or where more space for wheelchair users to access the toilet is needed.**

They all have either a tail lift or side lift with large opening doors which enable the wheelchair user to move straight into the toilet and washroom space. Inside, there is plenty of room for carers or family members who may need to assist or accompany the user.

You'll find a sink at wheelchair height, a toilet with drop down grab rails at either side, a full sized (6 ft) free standing and height adjustable changing bench and an electric ceiling tracked hoist which is compatible with all loop slings.

All but two of our units have a shower, and all have hot and cold running water. They all have heating so can be used all year round.

**The Vehicle will be with us for the following relaxed performances:**

23 Nov	<b>The Gruffalo's Child</b>	1pm	<b>Playhouse</b>
5 Jan	<b>Sleeping Beauty</b>	5pm	<b>Theatre Royal</b>

**N** Norwich  
Theatre
