## Other Courses Available

### Maths & English

We offer Functional Skills (Entry Level to Level 2) and GCSE courses to help improve your career, income, budgeting, and communication. Classes run online and at all our Learning Centres, with flexible schedules and multiple start dates throughout the year.

### ESOL (English for speakers of Other Languages)

English for Speaker of Other Languages (ESOL) programmes are designed specifically for people living in Britain and focus on preparing learners for the world of work or citizenship. The courses aim to develop listening, speaking, reading, writing and understanding of the English language, whatever your current level of English. We offer a course and exam.

### Digital Skills

Boost your confidence with technology—our computer courses help you stay connected, work smarter, explore new interests, and expand career opportunities. From beginner to advanced Level 3, including tailored Microsoft Office training, there's a course to suit every skill level.

### Workshops

Bespoke workshops may be available upon request to train staff in other areas of need.
