Safety

Children aged 15 years and under must take part alongside a paying adult and be accompanied throughout the event. School and youth groups who take part must have adequate supervision.

Upon running through the Bubble Stations, all children must be accompanied by an adult who will be responsible for their safety at this point. Small children may need to be lifted through some parts of the bubble stations, and we recommend they wear swimming goggles to protect their eyes.

Disabled entrants are welcome to take part. However due to the nature of the event, the location and some uneven terrain through the grounds of each park, please contact us prior to booking to establish whether the event is suitable for you.

On no account is alcohol to be brought into the event site or consumed during the event. EACH reserve the right to refuse entry to anyone under the influence of alcohol.

NO DOGS are allowed to participate in the Bubble Rush. This is in the best interest of your family pet and all those participating. The bubbles can affect dogs eyes as they have a different ph. level.

About the Foam

The foam mixture is completely natural and safe. We advise younger children to wear swimming goggles or fun sunglasses, as they will be head deep at most foam stations. Be careful when wiping your eyes with your hands if they have frothy suds all over them too. The coloured foam is made from food dye and is water soluble as well as environmentally friendly. There is a chance that this foam may stain some lighter coloured push chairs and clothes, so please be aware of this before you come to the event. To be safe we would also advise to bring towels to sit on in the car on your journey home – to avoid any possible stains or grumpy dads!

The bubble commandos at each station are professionally trained and will not shoot foam directly at your faces. The foam is also drier than most foams, which means you will not be slipping around at the foam stations.

It's a good idea to take some precautions to protect your mobile phone/ camera devices. The foam is water based so if you stay in foam too long your devices may get wet. Also your hands will get wet so be careful not to drop that new smartphone into the foam!

What Should I wear?

Due to the nature of the dyes used in the bubbles these may stain clothing. It is the participant's responsibility to come suitably dressed for the event. The event organisers take no responsibility for colour stains on any shoes or clothing.

You may also want to wear something that will help protect your eyes while running through the bubble stations. Sunglasses and goggles will be available to purchase on the day.

We strongly advise that all participants wear appropriate footwear to ensure their safe and enjoyable participation.

Participants can take part with a pushchair however be aware that the route takes place on even ground and that the foam could stain the fabric – so it's OK to park up and carry your little ones through the foam.

We also suggest that bring a pack that you can take with you around the course to carry goggles, water and some wet wipes to clean up excess foam. We suggest bringing a change

of clothes and shoes, as well as a towel, so you can dry down after the event. Please note that there will be no changing facilities available at the venue.

Cancellation

EACH reserves the right to cancel this event at any time. In the event of this happening, entry fees and sponsorship will be refunded in full.
